IbrahimMalgwi (github.com)

I am a software Engineer (with Java as my primary Language) with expertise in software development. I have knowledge of Java, JavaScript, Python, PHP, versions Control (Git), Spring Boot, React, NextJs, Django, MySQL, MongoDB, PostgreSQL, Maven, and Rest APIs. I have successfully completed designing and building Solutions and implementations. I am experienced in the entire software development life cycle, from requirements gathering to deployment. I am actively seeking a new opportunity as a Software Engineer where I can leverage my skills to create high-quality, robust, and scalable applications.

WORK EXPERIENCE

Mar. 2023 – date   **Software Engineer**

2010 – 2018 Secretary
Nexans NOCACO Limited (Sokoto branch)
Designed Reporting Systems using Microsoft Excell.

EDUCATION
2022 – 2023   Semicolon Africa
Software Engineering

2000 – 2006   Federal Government Collage Maiduguri, Borno State
Secondary School Leaving Certificate

2023   **Entrepreneurship and Business Management**
Henley Business School (University of Reading, UK)

TRAINING
2022   **Software Engineering**
Semicolon Africa
Design Thinking
Critical Thinking,
Industrial Design

Software Engineering
Programming languages, Frameworks and Libraries.
DevOps.

2014 – date	**Online course**
	Udemy, Priple, Alison
	Cyber Security
	Programming
	Networking
	Finance
	Project Management
	Public Speaking
	Leadership. etc
2021	**Industrial Training Fund (ITF)**
	Learned about Solar PV System.
	Design, Load Assessment, Installation, Maintenance, and Repairs
2014	**Source Institute Sokoto, Sokoto State**
	Personal Development, Leadership, and Life Management.
2014	**Miagro Limited Kaduna, Kaduna State**
	Human Capacity Building on Industrial and organizational psychology.
2008	**Yaysib Computer Institute Maiduguri, Borno State**
	Diploma in Computer Maintenance and Repairs.
2007	**Kwari Computer Academy Maiduguri, Borno State**
	Diploma In Computer General Application.
2004	**Peer Educators Training**
	NYSC Reproductive Health and HIV/AIDS Prevention Project Supported by UNICEF.

SKILLS (TECHNICAL And NON-TECHNICAL)
- ➢ Programming Languages Java, Python, JavaScript, PHP.
- ➢ Frameworks (Spring Boot, Django, Bootstrap, Tailwin CSS, Material UI)
- ➢ Libraries (React, Nextjs)
- ➢ Software development, testing, and debugging.
- ➢ Data structures, algorithms, and databases.

- DevOps.
- Agile software development methodology
- Computer hardware/software maintenance.
- Internet of Things.
- Networking
- Version control system (GIT)
- MS Office suite
- Adobe Creative
- Excellent verbal and written communication skills.
- Time, Resources, and Project Management.
- Communication (Oral and Written) Skills
- Interpersonal Relationship.

PERSONAL DATA

Languages Spoken: English, Bura/Pabir, Hausa
